SendGrid Account Creation

Date	30 October 2022
Team ID	PNT2022TMID14696
Project Name	Skill/Job Recommender
Team Members	B. Nishanth, B. Derick Prince, K. Vishwa, K. Madhan

Dashboard:

The screenshot shows the Twilio SendGrid dashboard for user Derick Prince. The left sidebar contains navigation links: Dashboard, Email API, Marketing, Design Library, Stats, Activity, Suppressions, Settings, and Twilio SMS (marked as NEW). The main content area features a welcome message and a section titled 'Send your first emails with Twilio SendGrid'. This section includes a 'Create a sender identity' step, explaining that a sender identity is the 'from' email address. It offers two options: 'Create a Single Sender' (highlighted in blue) and 'Authenticate a domain instead'. A diagram illustrates the sender identity as 'Your Business <jane.doe@your_business.com>' to 'me'. Below this is a 'Send your first email' section with a note: 'Please create a sender identity before sending your first email.' The dashboard also shows a 'REPUTATION' of 100% and a link to 'VIEW ACCOUNT USAGE'.

Email API:

The screenshot shows the 'Dynamic Templates' page in the Twilio SendGrid dashboard. A notification banner at the top states: 'Before sending your first email, you'll need to create a sender identity. [Create a sender identity](#)'. The main heading is 'Dynamic Templates'. Below it, there is a section titled 'Create your first dynamic template' with a subtext: 'Dynamic email templates allow you to easily build, personalize and manage emails that can be sent using an API call.' A blue button labeled 'Create a Dynamic Template' is prominently displayed. At the bottom, there is a 'Need Help?' link and a note: 'Learn more about creating dynamic templates.'
